The Gem and Concert Roller Organs obtain the Music from Rollers furnished with Pins similar to those of a Musical Box. The pins operate upon Valve Keys made of hard steel, the Roller being driven by suitable Gearing, which also works the Bellows. To remove the Roller and replace it by another, is but the work of an instant. Each Roller plays one tune. An endless variety of Music already in use and new Music Rollers continually prepared. The Reeds are of Organ Size.
